

# Guides/Tutorials

In this section, I post detailed guides that will help you step by step through various processes, from basic tasks to more advanced ones. The guides vary in content; some are video guides I have created, while others are simply a single command that solves a problem. This is a compilation of things that I have found useful in my work as an IT specialist, or that I have recorded because I saw a need for them among the people I was teaching:

- [DokuWiki: How to use Google Translate to translate your wiki](#)

—  
EE11 - Administration of network operating systems and computer networks
