

Linux w praktyce powłoka systemowa i środowisko graficzne

Linux

Historia, Konstrukcja Systemu, Powłoka Systemowa, Środowisko graficzne

Linux w teorii

historia i pojęcia

Twórcy UNIXa

Pierwszy komputer na którym uruchomiono UNIXA

Pierwsze środowisko graficzne dla UNIXA

Jak powstał LINUX ?

Jak powstało GNU ?

Jak powstał GNU/Linux ?

```
QEMU
Debian GNU/Linux 6.0 debian1 tty1
debian1 login: root
Password:
Last login: Fri Jan 10 09:53:12 CST 2014 on tty1
Linux debian1 2.6.32-5-686 #1 SMP Fri May 10 08:33:48 UTC 2013 i686

The programs included with the Debian GNU/Linux system are free software;
the exact distribution terms for each program are described in the
individual files in /usr/share/doc/*/copyright.

Debian GNU/Linux comes with ABSOLUTELY NO WARRANTY, to the extent
permitted by applicable law.
root@debian1:~# _

Linux Command Cheat Sheet					
Basic commands		File management		File Utilities	
	Pipe (redirect) output	find	search for a file	tr -d	translate or delete character
sudo [command]	run <command> in superuser mode	ls -a -C -h	list content of directory	uniq -c -u	report or omit repeated lines
nohup [command]	run <command> immune to hangup signal	rm -r -f	remove files and directory	split -l	split file into pieces
man [command]	display help pages of <command>	locate -i	find file, using updatedb(8) database	wc -w	print newline, word, and byte counts for each file
[command] &	run <command> and send task to background	cp -a -R -i	copy files or directory	head -n	output the first part of files
>> [fileA]	append to fileA, preserving existing contents	du -s	disk usage	cut -s	remove section from file
> [fileA]	output to fileA, overwriting contents	file -b -i	identify the file type	diff -q	file compare, line by line
echo -n	display a line of text	mv -f -i	move files or directory	join -i	join lines of two files on a common field
xargs	build command line from previous output	grep, egrep, fgrep -i -v	print lines matching pattern	more, less	view file content, one page at a time
1>2&	Redirect stdout to stderr	File compression		sort -n	sort lines in text file
fg %N	go to task N	tar xvfz	create or extract .tar or .tgz files	comm -3	compare two sorted files, line by line
jobs	list task	gzip, gunzip, zcat	create, extract or view .gz files	cat -s	concatenate files to the standard output
Ctrl-z	suspend current task	uuencode, uudecode	create or extract .Z files	tail -f	output last part of the file
		zip, unzip -v	create or extract .ZIP files
